WHITENING BIKINI CREAM

AMAZING EFFECT

Let your body SPEAK !

Dark bikini line can be a major turn off. These dark lines can be due to many reasons. Sweating, rashes, chafing, shaving are few reasons behind having dark bikini lines.

ATHENA^{LAB}

What causes dark bikini lines?

Chafing:

Heavy weight women with heavy thighs experience chafing and this can lead to dark genitals and bikini line rashes.

Polyester clothes:

This fabric increases sweating and lack of air supply damages the skin in the bikini area.

Shaving and hair removal creams

These methods of removing unwanted body hair leads to dark genital areas.

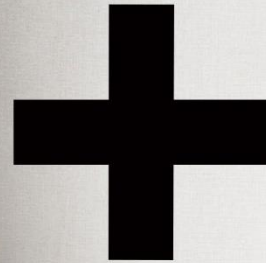

Formulation unique active ingredient

ATHENA^{LAB}

Niacinamide

Topically applied it has been shown to improve barrier function, increase ceramide and free fatty acid levels in skin, improves appearance of photoaged skin (such as hyperpigmentation, redness, and texture), stimulates microcirculation in the dermis, prevents skin from losing water content and reduces sebum production.

Glycolic Acid

Glycolic acid reacts with the upper layer of the epidermis, weakening the binding properties of the lipids that hold the dead skin cells together. This allows the stratum corneum to be exfoliated, exposing live skin cells.

Tamarind + Emblic + Ipomoea extracts

rich in anti-oxidant polyphenols

Skin Whitening Anti-irritation Anti-oxidant

dark spots fighter
skin luminescence booster
skin whitening promoter

Let your body SPEAK!

AMAZING
EFFECT

WHITENING BIKINI CREAM

Whitening Bikini Cream trusted formula helps brighten the underarm and bikini area (groin). It lightens dark spots while removing dead skin cells gradually. It delivers a blend of natural de-pigmentation and whitening agents deep into the layers of the skin.

These gently lighten the skin and reduce the activity of Tyrosine's (the enzyme responsible for darkening) in the skin. Protect against moisture loss, and make your skin even more smooth and supple.

It is safe to use for prolonged periods, and your skin will not turn darker than before if discontinued
